Basics

Introduction

This documentation provides the user's with information about the ***JCNA Event Manager***. It is intended for anyone using the ***JCNA Event Manager***.

WARNING

The current version of the ***JCNA Event Manager*** does **NOT** support Rally events, only Concours d'Elegance or Slalom events.

Features

The ***JCNA Event Manager*** has the following features:

- Easy installation using the installers.
- All Club, Car, and Class information is included so data entry is kept to a minimum.
- Can handle multiple events (one at a time).

  WARNING

  The current version of the ***JCNA Event Manager*** does **NOT** support Rally events, only Concours d'Elegance or Slalom events.
- Easy entry of event information. Information is entered once for an event.
- Easy car registration. Just select the entrant from the list of current JCNA members. All of the member's information is provided, but can be modified if necessary. Enter the car's particulars and press a button.
- All relevant sheets are printed, including filled-in score sheets for each entrant, the JCNA event report, standings, and even labels for mailing results to the entrants.
- Easily enter results for the event.
- A results file is automatically generated which can be attached to an email so that the results can quickly and easily be entered into the national database.
- Results can be archived so that information (cars entered, entrants', etc.) can be used in later years for even faster registration and pre-event informational mailings.

Definitions

The following are the definitions of some terms used in these documents.

Click	Move the mouse over the component (usually a button) and press the first (usually left) mouse button and then release it.
Select	Move the mouse over a row in a table or list and clicking on the row. The row will become highlighted to indicate that the row is selected. In cases where multiple rows can be selected, holding down the <Shift> key while selecting, selects all rows between the previous selection and the row clicked on, while holding down the <Ctrl> key while selecting, selects only the clicked on row, but keeps the previous selection also. This could also be used for combo boxes to mean that an item should be selected from the drop-down list. This is done by clicking on the **Down Arrow** button for the combo box and selecting an item from the list that pops up.

Copyright © 2002-2004, CAMWare, Inc.

Enter	When used in conjunction with a text field, for example,' Enter the entrant's name into the *Name* field', this means to click somewhere within the text field to get the cursor and edit the field until it is correct, using the standard editing keys.
Drag	Move the mouse over the desired location. Press the first (usually left) mouse button, and without releasing it, move the mouse pointer to the desired location, then releasing the button.
Entrant	A person that is entering a car in the event.

Typographical Conventions

The following table describes the typographic changes used in these documents.

Table 1-1: Typographical Conventions

Typeface	Meaning	Example
AaBbCc123	A button that can be pressed or a menu item.	Click on **Enter Car**. Click **Print Standings...** to print the event standings.
AaBbCc123	A control (combo box, table, dialog, etc.) in the user interface.	Select an entrant from the *Score* table. Select the entrant's club from the *Club Selector*. Select your club from the *Club Selection Dialog*.

Menu commands are indicated by giving the name of the menu, an arrow, and the name of the command. For example, **Admin->Print Labels...** refers to the **Print Labels...** button in the **Admin** menu.

Copyright © 2002-2004, CAMWare, Inc.

Getting Started

Installation

Installation of the ***JCNA Event Manager*** is very easy to do.

1. Obtain the installation file for your system from the JCNA Web Site or the ***JCNA Event Manager*** CD-ROM. This file is typically called "install". Installations are available for most operating system, with and without a JAVA Virtual Machine included. Make sure the right one is obtained.

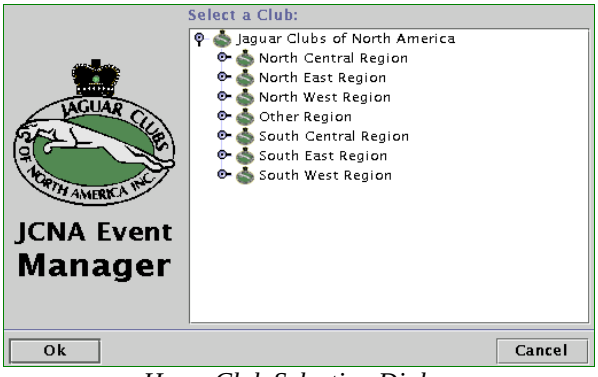
2. Start the installation by double clicking on the installation file (in most systems).

3. Follow the instructions in the installer.

The installation will usually install the software and some shortcuts for quickly starting the ***JCNA Event Manager***.

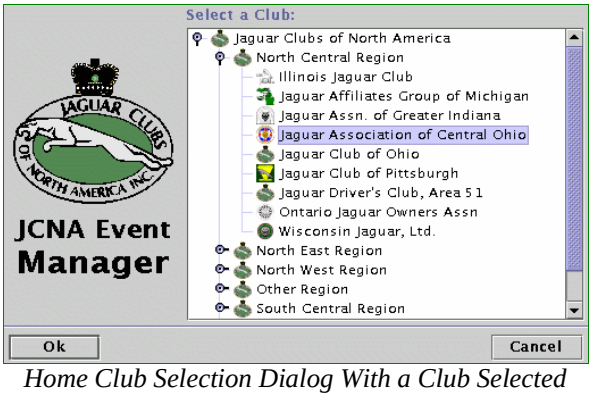
Initial Startup

The ***JCNA Event Manager*** is started in the usual way based on the operating system, e.g. the **Start** menu on Windows. The first time the application is started, you **MUST** select your club from the *Home Club Selector* dialog.



Home Club Selection Dialog

The clubs are separated into their regions for easier viewing. To see the clubs in a particular region, click on the handle (🔑) for the region. Then select the your club and click **Ok**. To exit the program without selecting a club, click on **Cancel**.



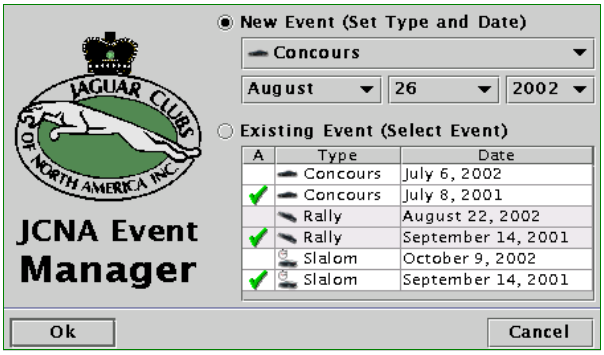
Home Club Selection Dialog With a Club Selected

This step is only done the first time that the ***JCNA Event Manager*** is started.

Copyright © 2002-2004, CAMWare, Inc.

Event Selection

The first dialog that comes up (every time, but the first) when the ***JCNA Event Manager*** is started is the *JCNA Event Selector* dialog.

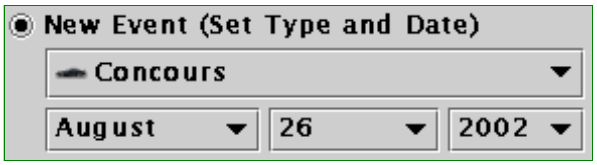


JCNA Event Selector Dialog

This dialog allows you to create a new event or select an existing one. Clicking on **Cancel** at any time cancels the event selection and allows you to exit the application.

Creating a New Event

The top part of the *JCNA Event Selector* dialog allows you to create a new event.



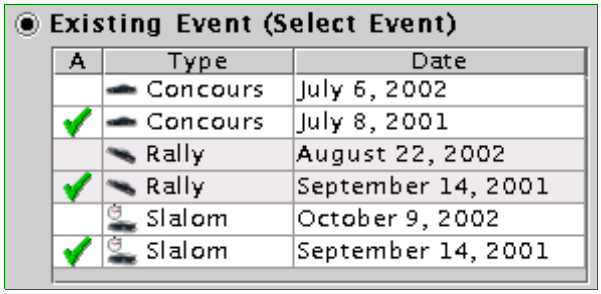
To create a new event, select the type of event to create using the *Event Type* combo box, then set the date of the event using the *Date* combo boxes. Make sure that **New Event** is selected, then click on **Ok**.

WARNING

The current version of the ***JCNA Event Manager*** does **NOT** support Rally events, only Concours d'Elegance or Slalom events.

Selecting an Existing Event

The middle part of the *JCNA Event Selector* dialog allows you to select an existing event.



Copyright © 2002-2004, CAMWare, Inc.

The events that the ***JCNA Event Manager*** knows about are listed in the table. The columns of the table are as follows:

Table 2-1: Existing Event Column Definitions

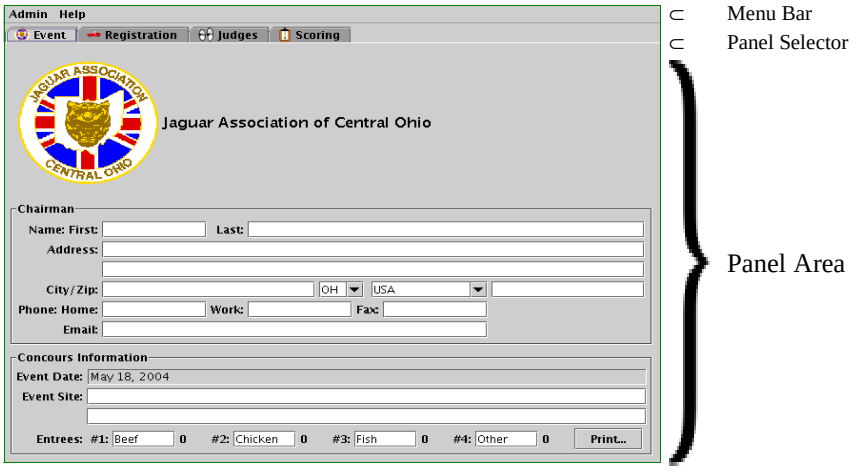
Column	Description
A	Whether the event has been archived or not. See Exiting for information about archiving events.
Type	The type of event. This will be either Concours, Rally, or Slalom. **WARNING** The current version of the ***JCNA Event Manager*** does **NOT** support Rally events, only Concours d'Elegance or Slalom events.
Date	The date of the event.

To select an existing event, select the row of the event from the *Existing Event* table. Make sure that the **Existing Event** is selected, then click on **Ok**. Or double click on the row of the event from the *Existing Event* table.

When an archived event is selected using the *JCNA Event Selector*, most aspects of the application are disabled. Basically, everything besides printing, is disabled.

Application Layout

The ***JCNA Event Manager*** has three major parts: the Menu Bar, the Panel Selector and the Panels. The following picture shows the three parts.

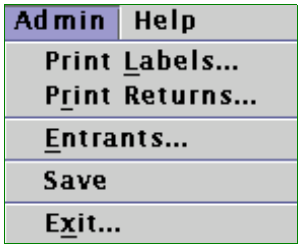


JCNA Event Manager Window

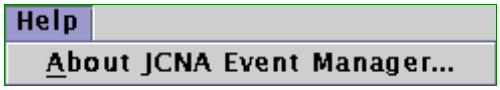
Copyright © 2002-2004, CAMWare, Inc.

The Menu Bar

The Menu Bar contains the familiar pull-down menus for the application. There are two pull-down menus for the ***JCNA Event Manager***: the **Admin** Menu and the **Help** Menu.



The Admin Menu



The Help Menu

Table 2-2: The Admin Menu Descriptions

Item	Description
Print Labels...	Prints the address labels with the club's logo and each entrant's name and address. It prints one label for each entrant and one or more labels for the JCNA event reports. See Label Printing for more information.
Print Returns...	Prints return address labels with the club's logo and the chairman's name and address. It prints just enough to handle the entrant mailings. See Label Printing for more information.
Entrants...	Allows the administration of the entrants. See Entrant Administration for more information.
Save	Saves the event data. This is usually not necessary, because the system periodically saves the data automatically. This is provided for a feel-good feeling.
Exit	Exits the Application. See Exiting for more information.

Table 2-3: The Help Menu Descriptions

Item	Description
About JCNA Event Manager...	Displays information about the ***JCNA Event Manager***.

The Panel Selector

The panel selector provides a way to select which panel in the application to work with. It takes the appearance of file folder tabs just under the menu bar.

The Panel Selector (Shown for Concours Managing)

To use the Panel Selector, merely click on the tab corresponding to the panel you wish to work with. That panel should be displayed.

The tabs that are available depend on what event type we are managing and whether the event was archived.

Copyright © 2002-2004, CAMWare, Inc.

The Panels

The panels show depending on which tab is selected in the *Panel Selector*. The following table describes the panels and when they are available.

WARNING

The current version of the ***JCNA Event Manager*** does **NOT** support Rally events, only Concours d'Elegance or Slalom events.

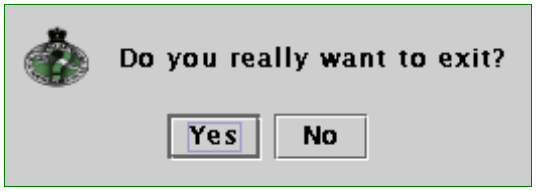
Table 2-4: The Panel Descriptions

Panel	C	R	S	A	Description
Event	✓	✓	✓	✓	Shows information about the event, including the chairman's information and the event site. It also tells which club is hosting the event.
Registration	✓	✓	✓		Allows the registration of entrants and their cars.
Judges	✓			✓	allows the setting of judges or judge groups for a Concours d'Elegance. It only allows printing when the event was archived.
Scoring	✓			✓	Handles the scoring for Concours d'Elegance. Allows only printing when the event was archived.
Checkpoints		✓		✓	Handles the timing for Rally events. ***This panel is not currently available.***
Times			✓	✓	Handles the timing for Slalom events. Allows only printing when the event was archived.

The second through fifth columns specify when the panels are available (C = Concours d'Elegance, R = Rally, S = Slalom, A = Archived Event). Note that even if a panel is available for a particular event type, if the event was archived, no fields on the panel will be editable.

Exiting

The ***JCNA Event Manager*** should always be exited using the **Admin->Exit...** menu option. When this option is activated, the following dialog appears.



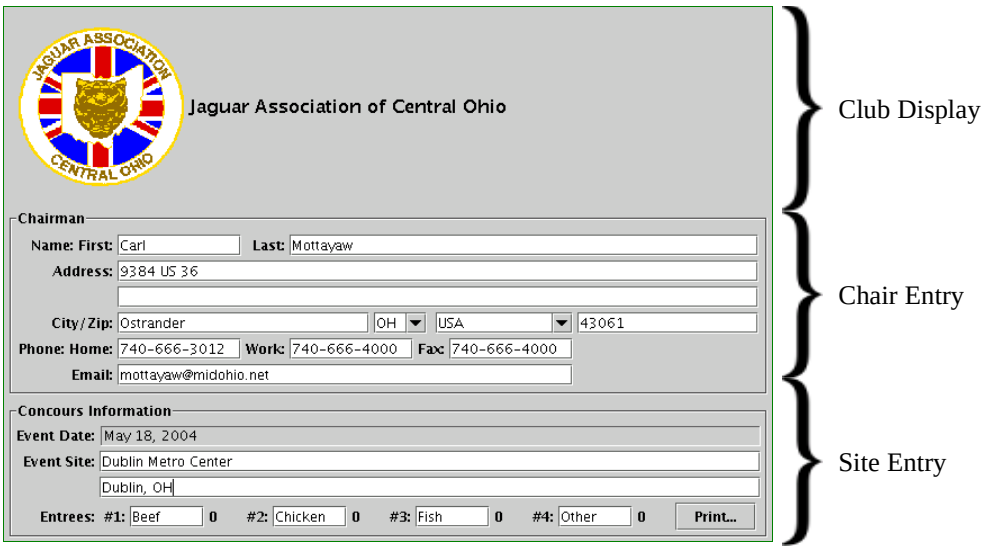
Exit Query Dialog

Clicking on **Yes** will save the event information and exit. Clicking on **No** cancels the exit and returns you to the application.

Copyright © 2002-2004, CAMWare, Inc.

Event Panel

The *Event Panel* is used to enter or display information about an event.



The Event Panel

This panel is available for all types of events. Information entered on this panel need only be entered once, but can be modified at any time. When the event was previously archived, the panel is present, but the fields are not editable.

WARNING

The current version of the ***JCNA Event Manager*** does **NOT** support Rally events, only Concours d'Elegance or Slalom events.

The Club Display

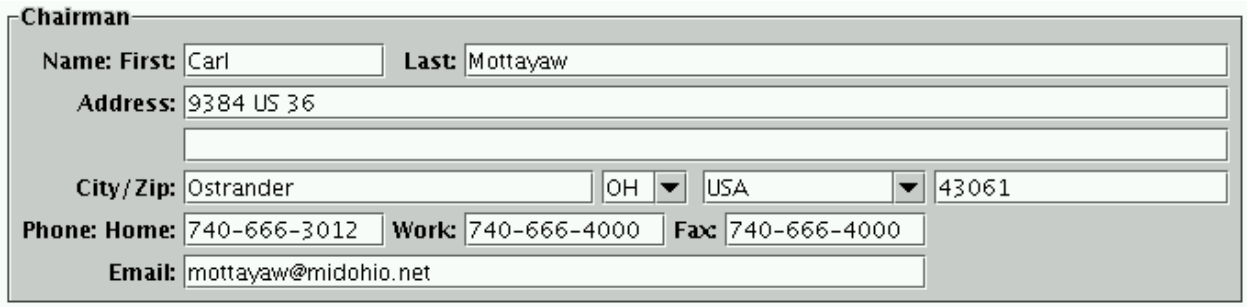
The *Club Display* section of the *Event Panel* shows the host club of the event.

If the club's logo is available, it will be shown on the left and the club's full name is shown on the right.

Copyright © 2002-2004, CAMWare, Inc.

The Chair Entry

The *Chair Entry* section of the *Event Panel* allows the chair of the event to enter his or her contact information.

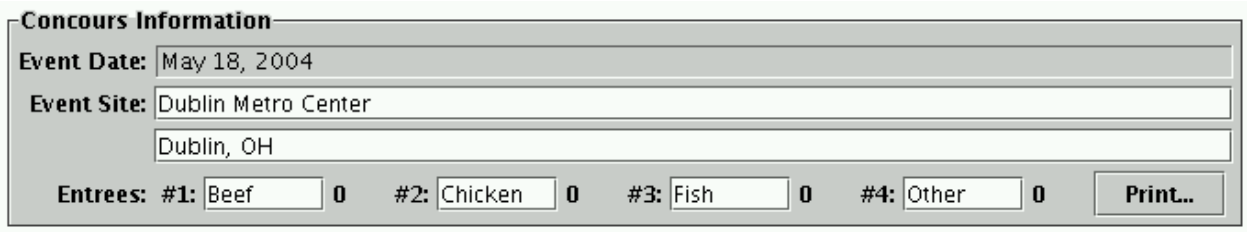


The data is entered by clicking in the fields and typing the information requested. These fields take any text and are not limited by length, although, long street addresses could be split across lines to facilitate better formatting when printing.

When changing the country, the state list will change to reflect the new country, therefore it is advisable to set the country before the state.

The Site Entry

The *Site Entry* section of the *Event Panel* displays the date of the event and allows the entry of site information.



The information is entered by clicking in the fields and typing the information requested. These fields take any text and are not length-limited. In general, the name of the site (hotel, park, etc.) is placed on the first line, and the city and state are entered on the second, although that is not a requirement.

The Entrees line is used to specify the different entrees available at the event banquet. The default entrees are “Beef”, “Chicken”, “Fish” and “Other”. These entrees can be changed by clicking in the appropriate field and typing the new entree name. The numbers after each field is the total number of each entree that has been ordered. An Entree Report is available for printing by clicking on **Print...**.

The title of the *Site Entry* section will change to reflect the type of event the application is managing.

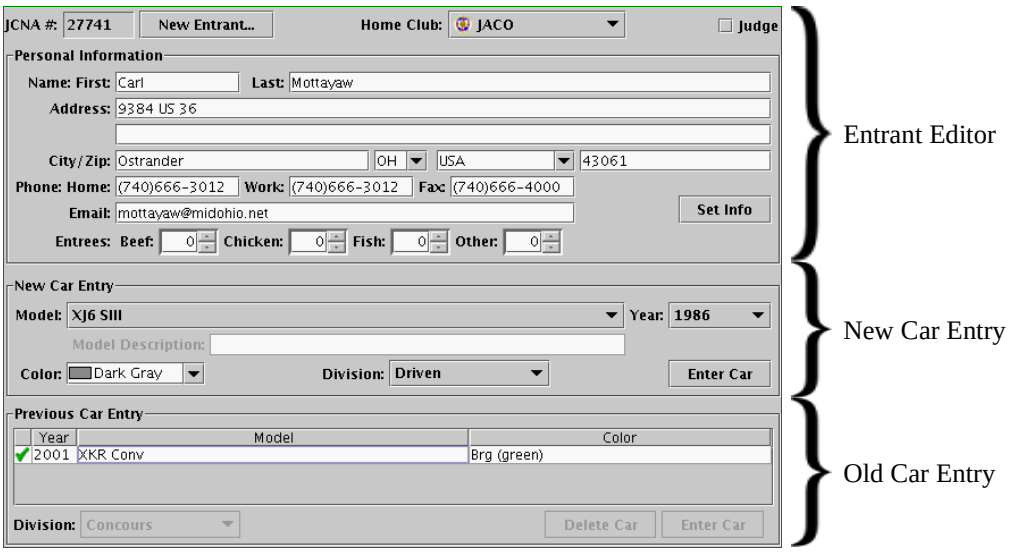
WARNING

The current version of the ***JCNA Event Manager*** does **NOT** support Rally events, only Concours d'Elegance or Slalom events.

Copyright © 2002-2004, CAMWare, Inc.

Registration Panel

The *Registration Panel* is used to register cars for the event.

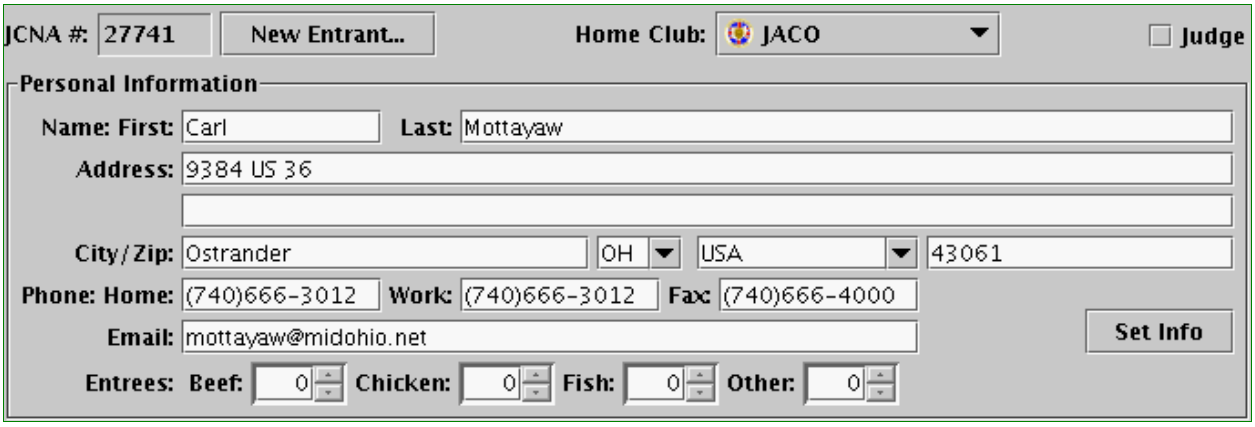


The Registration Panel

This panel is available for all types of events. When the event was previously archived, the panel is not present.

Selecting Entrants

Entrants are selected for registration using the *Entrant Editor*.



All entrants are selected using the *Entrant Selection Dialog*. Invoke this dialog by clicking on the **New Entrant...** button. Once the entrant is selected, the information about that entrant will be displayed in the *Entrant Editor*. If the information is correct, nothing more needs to be done.

If necessary, parts of the entrant's information can be changed by clicking in the necessary field and correcting the information. The number of each entree ordered by the entrant can be changed by clicking on the up or down arrows or typing in a number and pressing **Enter.** The entree names should match the values typed in on the *Event Panel*. The *Home Club and* the *Judge* flag (whether the entrant is a judge) can be changed also.

When all of the changes have been made, click the **Set Info** button to update the data.

Copyright © 2002-2004, CAMWare, Inc.

Entrant Selection Dialog

An entrant for the event is selected using the *Entrant Selection Dialog*.

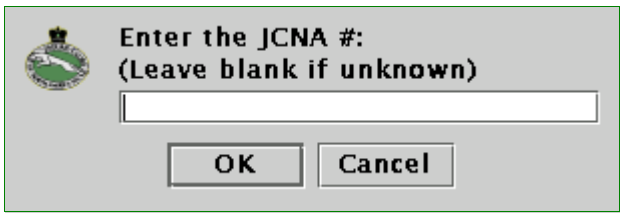
Member Search

The Entrant Selection Dialog

To select an entrant for registration, select the desired member in the *Member List* and click on **Ok**. The *Search Form* allows for easy searches in the list. If you do not wish to select an entrant, click **Cancel** to return to the *Registration Panel*.

If the member is not in the list, click on **New**. A dialog appears asking for the member's JCNA Number,



If the JCNA Number is known, then type it in (without any club prefix or leading zeros) and click **Ok**. If the member is there, the member will automatically be selected. If it is not there, then a new member record is created with that JCNA Number. If the JCNA Number is not known, leave the field empty, and click **Ok**. This creates a new member record with an automatically generated JCNA Number (these numbers start with the letter 'L' followed by four digits and are unique only within your club's data). If you decide not to enter a new member, click **Cancel** to return to the *Entrant Selection Dialog*.

Copyright © 2002-2004, CAMWare, Inc.

The Member List

The *Member List* allows the selection of one member for entering into the event.

To select a member in the list, click on the row that represents that member. Double-clicking on a member will select the member and return to the *Registration Panel*, just as if a member had been selected and **Ok** was clicked.

The *Member List* contains columns for each piece of information about the members. The following table contains a list of all of the columns and their descriptions.

Table 4-1: Member List Columns

Column	Description
JCNA #	The member's JCNA Number.
Name	The member's name (first name, then last name).
Address	The member's street address (both parts).
City	The city where the member lives.
State	The state where the member lives.
Entree #1 (Beef)	The number of Entree #1 ordered for the banquet. The column header changes based on the entree name on the *Event Panel*.
Entree #2 (Chicken)	The number of Entree #2 ordered for the banquet. The column header changes based on the entree name on the *Event Panel*.
Entree #3 (Fish)	The number of Entree #3 ordered for the banquet. The column header changes based on the entree name on the *Event Panel*.
Entree #4 (Other)	The number of Entree #4 ordered for the banquet. The column header changes based on the entree name on the *Event Panel*.
Country	The country where the member lives.
Code	The member's postal code.
👓	Whether the member is a judge. ✔ means the member is a judge.
Club	The club the member belongs to.
Home	The member's home phone number.
Work	The member's work phone number.
Fax	The member's fax number.
Email	The member's email address.

Copyright © 2002-2004, CAMWare, Inc.

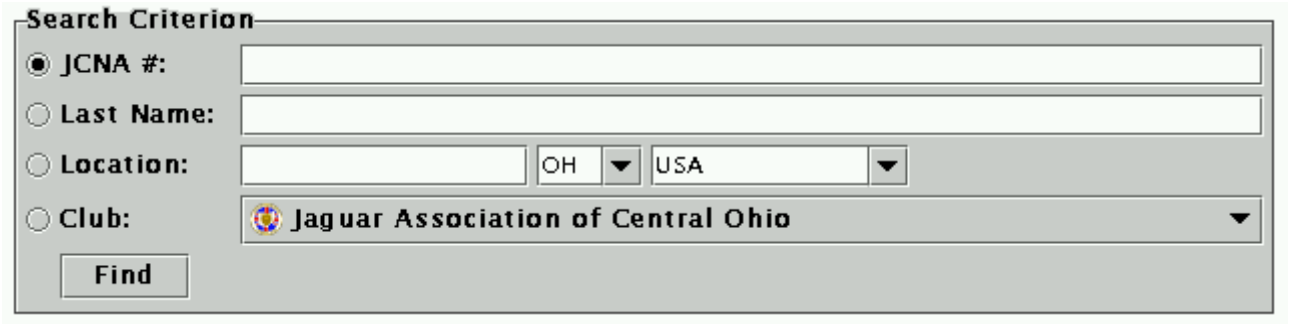
The first five columns (JCNA #, Name, Address, City, and State) are showing by default. The other columns can be seen by clicking the left-pointing arrow at the top of the vertical scrollbar. Each click of this button will add one more column to the display. The right-pointing arrow removes one column from the display. The JCNA # and Name columns cannot be removed from the display.

The order of the columns can be changed by dragging the column headers left or right.

The list can be sorted by some of the columns (JCNA #, Name, City, State, Country, and Club). To do this, click on the header of the column you wish to sort on. The column will be sorted in ascending order. A second click on the same column header will sort the column in descending order. Subsequent clicks will toggle the sort order for the column. A small arrow at the far right side of the column header 
shows which column is sorted and whether it is sorted in ascending or descending order. The sorted column header is also rendered in bold.

The Search Form

The *Search Form* allows the searching of the member list.



Members can be search using one of four criteria. A side effect of a search is that the member list gets sorted, based on which search criterion is used, before the search is done. The following table describes these criteria.

Table 4-2: Member Search Criteria

Criterion	Sorted Column	Description
JCNA #	JCNA #	Find a member by JCNA Number. This is the most exact search.
Last Name	Name	Find a member by last name. This finds the first member with the specified last name or the first member that is the closest to it.
Location	City (if present) State (if present) Country (if present)	Find a member by city, state and/or country. This finds the first member with the city, state, and/or country as their address. In this search, only one of city, state, or country is required, but all three can be specified.
Club	Club	Find a member by club. This finds the first member for a particular club.

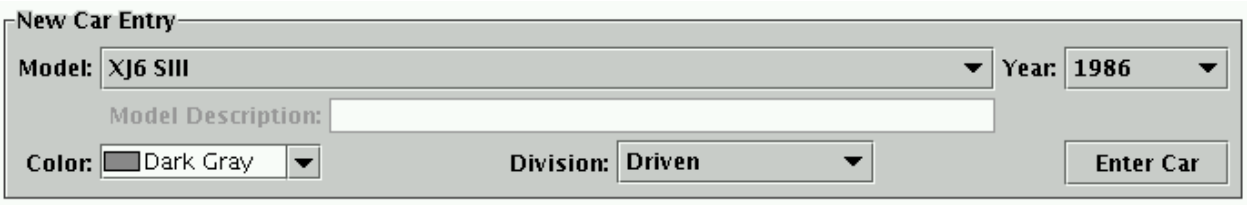
To use the search form, click on the appropriate criterion, fill in the data to search for, and click **Find**. Entering a value into the JCNA #, Last Name, or Location fields or selecting a club will automatically select that criterion as the search criterion. Also, typing <Enter>, while in any of the fields, will perform the search.

When the search is performed, the member list will scroll so that the found member is displayed and highlighted.

Copyright © 2002-2004, CAMWare, Inc.

Entering New Cars

The *New Car Entry* section of the *Registration Panel* is used to enter new cars in the event. A new car is one the member has never entered into an event hosted by your club.



To enter a new car in the event, fill in the form and click **Enter Car**. All models recognized by the JCNA are represented in the *Model* selector. The model should be selected first. If the model is not in the list, select **Other...** and type the car's model into the *Model Description* field.

Be careful when selecting a model, because some models have many different versions, e.g. the XJ6. Make sure you get the correct one, because the model and year determine what class the car is entered in.

When a model is selected, the *Year* selector is updated to include the years that model was made.

The *Color* selector contains a list of often used colors in it's drop-down list, but any color can be set, by clicking on the text and editing it.

The *Division* selector specifies what class the member wishes to enter the car in. The selector has the following classes (only Concours d'Elegance event divisions are currently shown):

Table 4-3: Car Divisions

Division	C	R	S	Description
Concours	✓			Enter the car in the Concours Championship class appropriate for the model and year.
Driven	✓			Enter the car in the Driven class appropriate for the model and year.
Preservation	✓			Enter the car in the Concours Championship class ***C19***. Any model car more than twenty years old can be in this class.
Factory Comp	✓			Enter the car in Special class ***S1***. These cars are factory produced competition cars.
Private Comp	✓			Enter the car in Special class ***S2***. These cars are privately produced competition cars.
Modified	✓		✓	**Concours:** Enter the car in the Special class ***S3***. **Slalom:** Enter the car in either class ***H*** or ***I,*** depending on the type of car. Any model and year car can be entered in this class.
Replica	✓			Enter the car in Special class ***S4***. These are Jaguar-powered replicas.
Display	✓			Present the car for Display only (not judged). This class is designated class ***Z***.
Stock			✓	Enter the car in the Slalom class appropriate for the model and year.
Street Prepared			✓	Enter the car in either class ***SP/H*** or ***SP/L*** depending on the model. Any model and year of car can be entered in this class.

The second, third and fourth columns specify when the class divisions are available (C = Concours d'Elegance, R = Rally, S = Slalom).

WARNING

The current version of the ***JCNA Event Manager*** does **NOT** support Rally events, only Concours d'Elegance or Slalom events.

Copyright © 2002-2004, CAMWare, Inc.

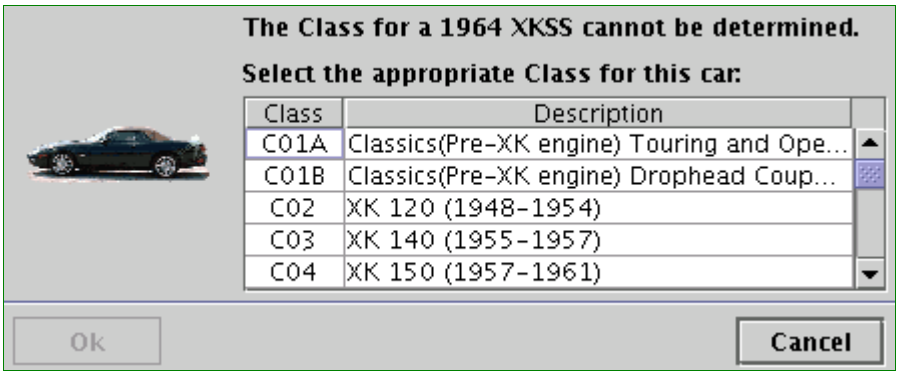
Concours d'Elegance

When a car has been entered into the event, a dialog is displayed asking whether a set of score sheets should be printed and allowing a change to the entrant's name.

The entrant's name can be changed for this entry by clicking in either the *First Name* or *Last Name* field and typing the new name. This is useful when a husband and wife both enter cars using a joint JCNA membership number, but want the score reported to the JCNA using only one of their names.

Click **Yes** to print the score sheets, **No** to continue without printing the score sheets. The sheets printed depend on what class the car is entered. If the car is entered in a championship or special class, exterior, interior, and engine/boot judging sheets are printed, as well as, a dash card for the car. If the car is entered in a driven class, exterior, and interior judging sheets are printed, as well as, a dash card for the car. If the car is entered into the display class, only a dash card for the car is printed. If you do not print the score sheets at this point, you can always print them later from the *Scoring Panel*.

In some cases, mainly when the model is specified using the **Other...** selection, a class selector dialog will be displayed before the above dialog.



Select the appropriate class and click **Ok**. If **Cancel** is clicked, the car entry is aborted and the car will not be entered.

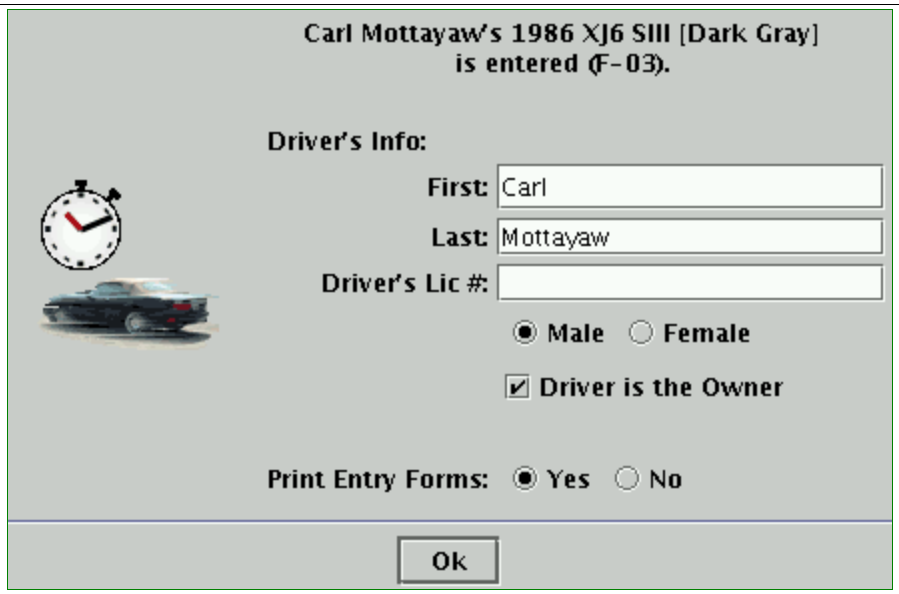
Rally

Not currently supported.

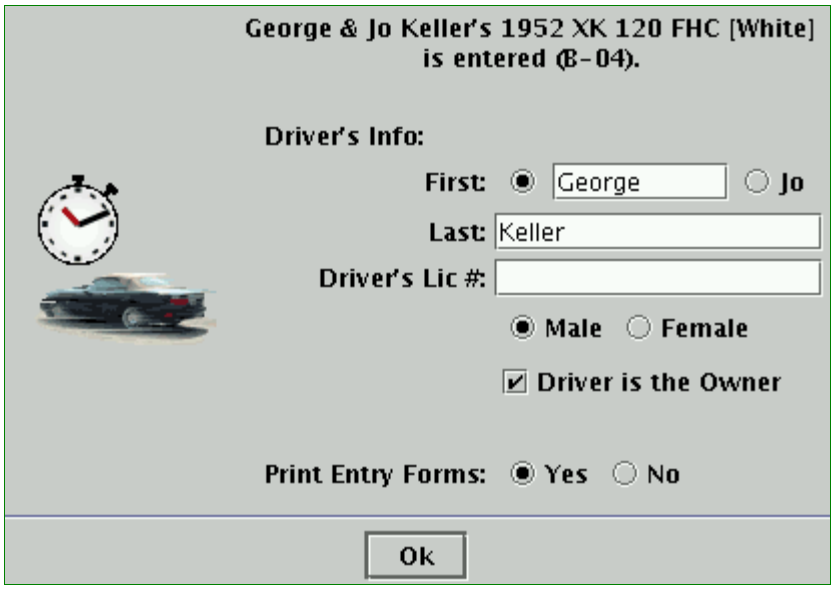
Slalom

When a car has been entered into the event, a dialog is displayed asking for more information about the entrant. This dialog has two versions, one when the member entering the car is a single membership and one for when the member entering the car is a joint membership.

Copyright © 2002-2004, CAMWare, Inc.



Slalom Entry Dialog (Single Member)



Slalom Entry Dialog (Joint Member)

The only difference between the two dialogs is that the one for joint memberships has an extra selector to specify which of the individuals in the joint membership is entering the car. It is also possible to change the name of the entrant entirely by clicking in the *First* or *Last* field and typing the new name (if this was a joint membership, make sure that the toggle button for the *First* field is selected). **Note:** It is possible to enter the same car in the same class twice in a Slalom as long as the entrant's names are not the same.

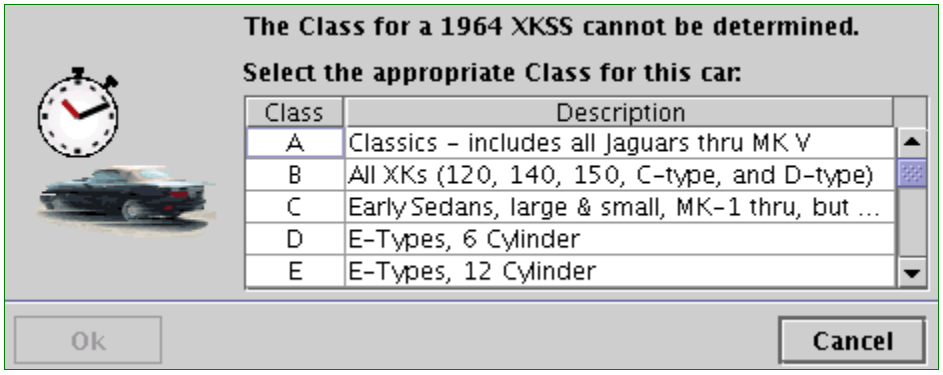
Enter the driver's license number in the **Driver's Lic #** field. Select whether the entrant is **Male** or **Female** and whether the **Driver is the Owner**.

Select whether to **Print Entry Forms**. If **Yes** is not selected, nothing will be printed at this time, however, the entry forms can be printed later from the *Times Panel*. If the entrant is a JCNA member, then a National Slalom Entry Form and a JCNA Slalom Tech Inspection Check List is printed, if not, those forms and a Special Event Member Registration Form are printed. If the car is entered in a Modified class, a Performance Modifications form is also printed out.

When the dialog's controls are set correctly, click **Ok**.

Copyright © 2002-2004, CAMWare, Inc.

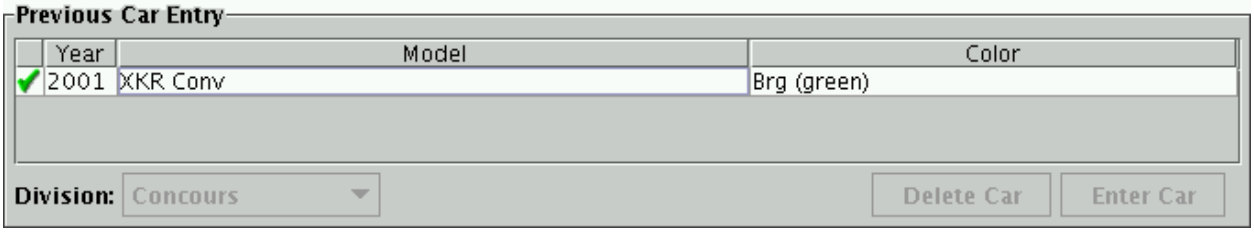
In some cases, mainly when the model is specified using the **Other...** selection, a class selector dialog will be displayed before the above dialogs.



Select the appropriate class and click **Ok**. If **Cancel** is clicked, the car entry is aborted and the car will not be entered.

Entering Old Cars

The *Old Car Entry* section of the *Registration Panel* is used to enter a car that has previously been entered in one of the local club's events.



An old car is entered by selecting the car in the *Previous Car* table, setting the division (see above), and clicking **Enter Car**. The first column in the table shows which cars have been entered into this event. If a check mark (✔) is present the car is already entered.

WARNING

The current version of the ***JCNA Event Manager*** does **NOT** support Rally events, only Concours d'Elegance or Slalom events.

Concours d'Elegance

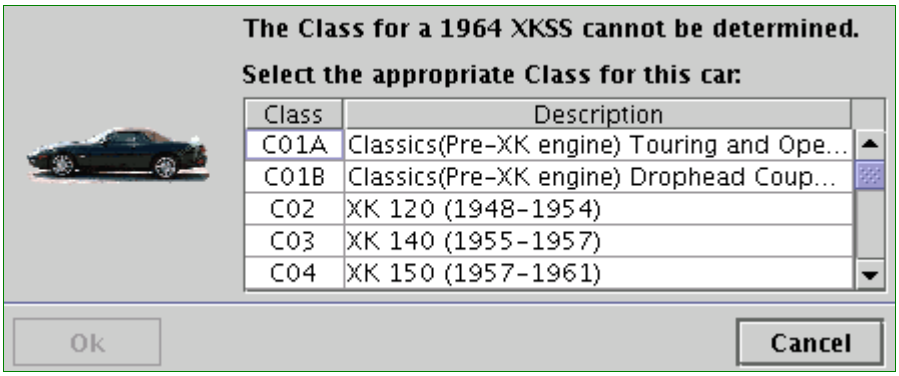
When a car has been entered into the event, a dialog is displayed asking whether a set of score sheets should be printed and allowing a change to the entrant's name.

Copyright © 2002-2004, CAMWare, Inc.

The entrant's name can be changed for this entry by clicking in either the *First Name* or *Last Name* field and typing the new name. This is useful when a husband and wife both enter cars using a joint JCNA membership number, but want the score reported to the JCNA using only one of their names.

Click **Yes** to print the score sheets, **No** to continue without printing the score sheets. The sheets printed depend on what class the car is entered. If the car is entered in a championship or special class, exterior, interior, and engine/boot judging sheets are printed, as well as, a dash card for the car. If the car is entered in a driven class, exterior, and interior judging sheets are printed, as well as, a dash card for the car. If the car is entered into the display class, only a dash card for the car is printed. If you do not print the score sheets at this point, you can always print them later from the *Scoring Panel*.

In some cases, mainly when the model is specified using the **Other...** selection, a class selector dialog will be displayed before the above dialog.



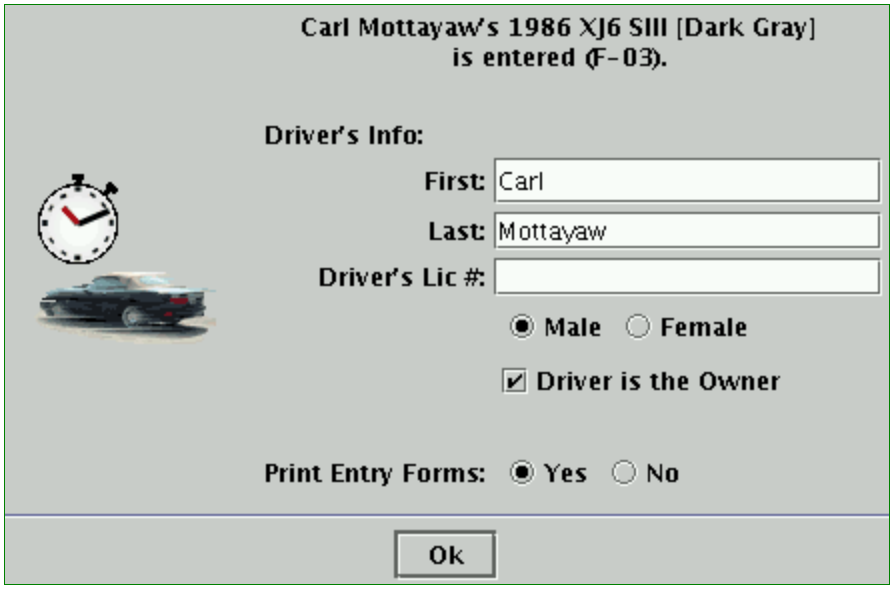
Select the appropriate class and click **Ok**. If **Cancel** is clicked, the car entry is aborted and the car will not be entered.

Rally

Not currently supported.

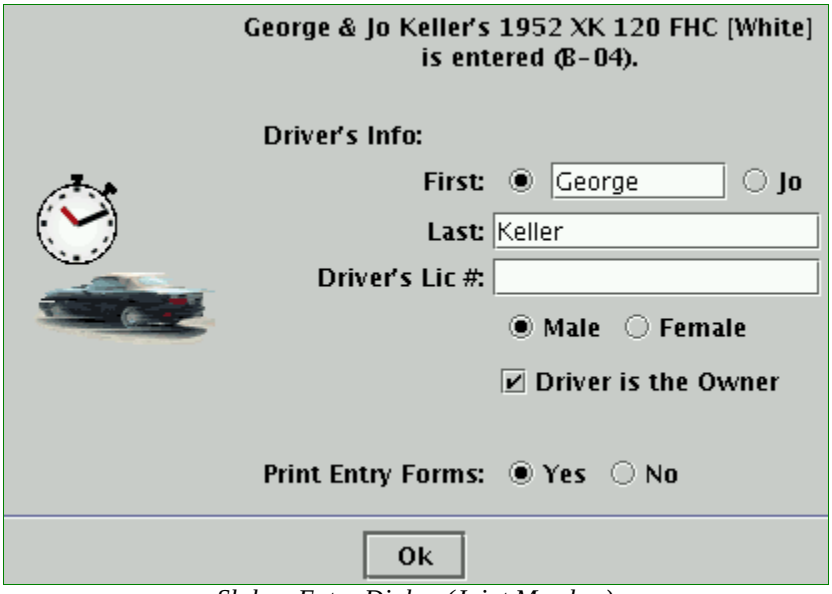
Slalom

When a car has been entered into the event, a dialog is displayed asking for more information about the entrant. This dialog has two versions, one when the member entering the car is a single membership and one for when the member entering the car is a joint membership.



Slalom Entry Dialog (Single Member)

Copyright © 2002-2004, CAMWare, Inc.



Slalom Entry Dialog (Joint Member)

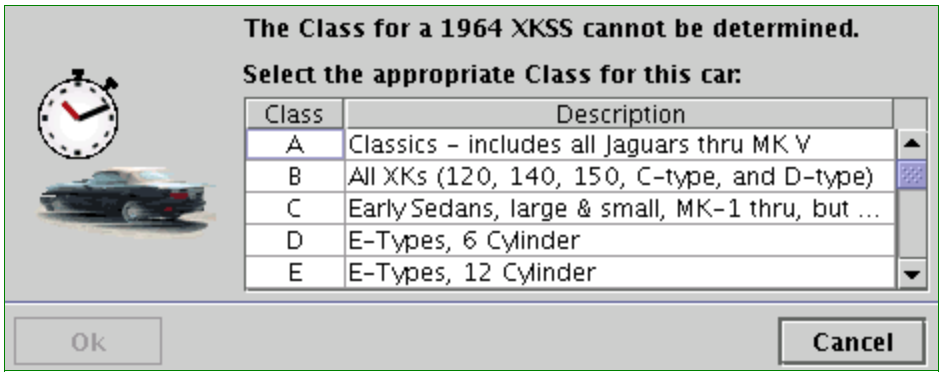
The only difference between the two dialogs is that the one for joint memberships has an extra selector to specify which of the individuals in the joint membership is entering the car. It is also possible to change the name of the entrant entirely by clicking in the *First* or *Last* field and typing the new name (if this was a joint membership, make sure that the toggle button for the *First* field is selected). **Note:** It is possible to enter the same car in the same class twice in a Slalom event as long as the entrant's names are not the same.

Enter the driver's license number in the **Driver's Lic #** field. Select whether the entrant is **Male** or **Female** and whether the **Driver is the Owner**.

Select whether to **Print Entry Forms**. If **Yes** is not selected, nothing will be printed at this time, however, the entry forms can be printed later from the *Times Panel*. If the entrant is a JCNA member, then a National Slalom Entry Form and a JCNA Slalom Tech Inspection Check List is printed, if not, those forms and a Special Event Member Registration Form are printed. If the car is entered in a Modified class, a Performance Modifications form is also printed out.

When the dialog's controls are set correctly, click **Ok**.

In some cases, mainly when the model is specified using the **Other...** selection, a class selector dialog will be displayed before the above dialogs.



Select the appropriate class and click **Ok**. If **Cancel** is clicked, the car entry is aborted and the car will not be entered.

Copyright © 2002-2004, CAMWare, Inc.

The *Previous Car* table can also be used to modify the *Color* field for a car. To edit the color, click in the *Color* field and edit the value there, then press <Enter>. This will change the field to the new value.

If a member no longer owns a particular car, it can be deleted from the system by selecting it in the table and clicking **Delete Car**. A dialog is displayed asking if you really want to delete the car.

Click **Yes** to delete the car, **No** to return without deleting the car.

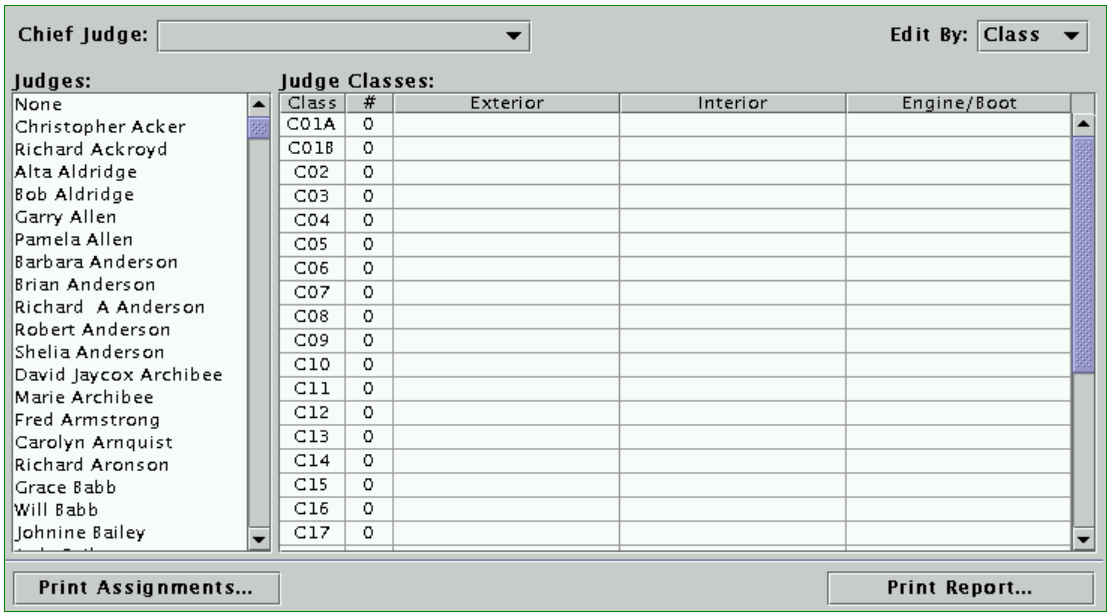
Copyright © 2002-2004, CAMWare, Inc.

Concours Panels

There are two special panels used to manage Concours d'Elegance events in ***JCNA Event Manager***, the *Judge Panel* and the *Scoring Panel*.

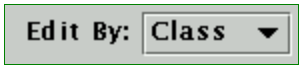
Judge Panel

The *Judge Panel* is used to specify which judges judge which classes.

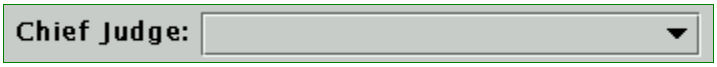


The Judge Panel Editing by Class

This information can be specified in two ways, by class or by group. The *Edit By* selector allows the switching from class editing to group editing and visa-versa.



In either case, the chief judge is set using the *Chief Judge Selector*.



Only judges that are members of the host club will show up in this selector.

If the person that you want is not in the chief judge list or any other judge list, they are probably not listed in the master member list as a judge. To fix this, use the *Entrant Administration* dialog to modify the Judge flag for the member. If the person is not a member of the JCNA, then use the *Entrant Administration* dialog to add them, making sure to set the Judge flag.

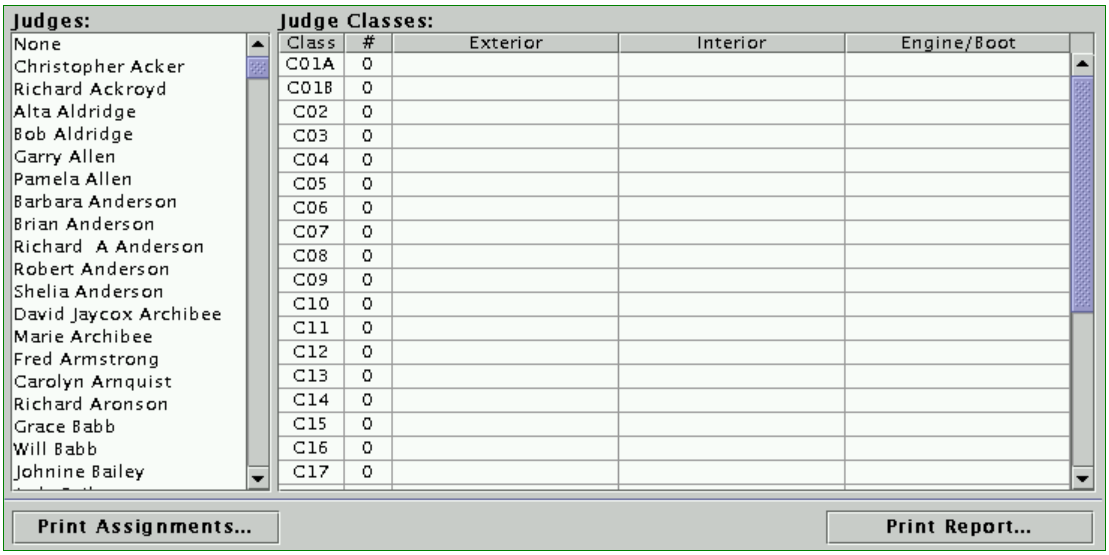
Two reports are available for the *Judge Panel*, the judging assignments and the judge's report. The judge's assignment is printed using the **Print Assignments...** button. The judge's report is printed using the **Print Report...** button.

The judging assignment printout is also useful for telling how many cars are entered in each class. If no judging assignments have been made, the printout will contain a list of classes and how many cars are entered in each.

Copyright © 2002-2004, CAMWare, Inc.

Judging By Class

The *Judging By Class* panel is used to set up the judging by specifying the specific judge for each portion (exterior, interior, engine/boot) for each class.



Judging By Class Panel

To use this panel, a judge is selected from the *Judges* list and then the appropriate spot in the *Judge Classes* table is clicked. When this is done, the judge is assigned to judge the particular class and portion that was clicked. To assign the judge to another class and portion, merely click in another class and portion. To de-assign a judge to a class. select **None** from the *Judges* list then click in the class and portion that you want to de-assign.

The columns for the *Judge Classes* table are as follows:

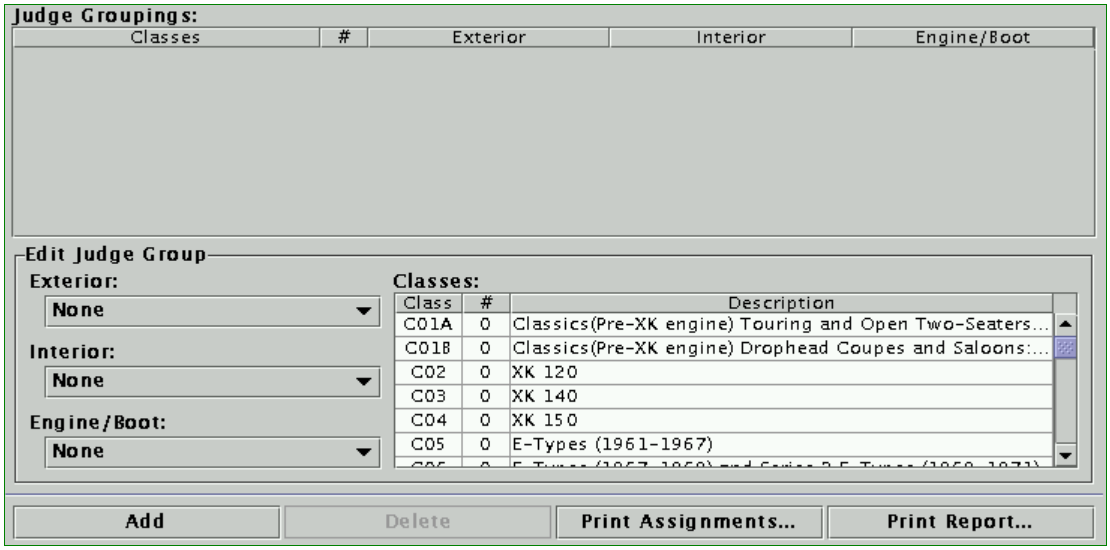
Table 5-1: Judge Classes Columns

Column	Description
Class	The class for the judges.
#	The number of cars currently entered in the class.
Exterior	The exterior judge for the class.
Interior	The interior judge for the class.
Engine/Boot	The engine/boot judge for the class.

Copyright © 2002-2004, CAMWare, Inc.

Judging By Group

The *Judging By Group* panel is used to set up the judging by specifying groups of judges then assigning them to classes. Each judge group consists of an exterior judge, an interior judge, and an engine/boot judge.

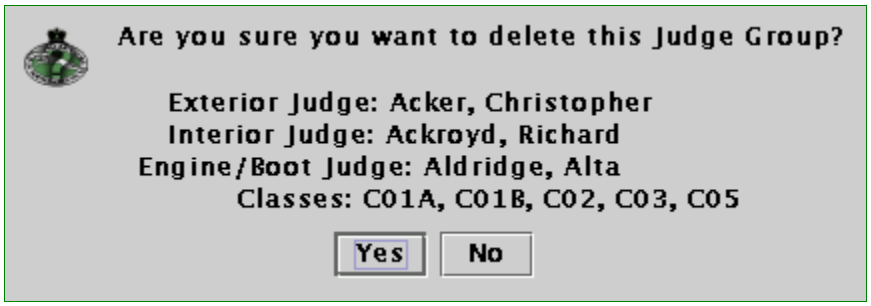


Judging By Group Panel

To use this panel, first define a judge group by selecting a judge for the exterior, interior and engine/boot using the *Exterior*, *Interior*, and *Engine/Boot* selectors, respectively. Then select the classes the group is to judge from the *Classes* table. Note that multiple classes can be selected (see Definitions). Finally, to add the group, click **Add**. The judge group should be added to the *Judge Groupings* table.

To modify a judge group, select the judge group from the *Judge Groupings* table, change the desired information in the *Edit Judge Group* panel, then click **Modify**. The **Modify** button is only available when a judge group is being edited.

To delete a judge group, select the judge group from the *Judge Groupings* table, then click **Delete**. A dialog is displayed asking whether the group should be deleted.



Are you sure you want to delete this Judge Group?
Exterior Judge: Acker, Christopher
Interior Judge: Ackroyd, Richard
Engine/Boot Judge: Aldridge, Alta
Classes: C01A, C01B, C02, C03, C05
Yes
No

Click **Yes** to delete the judge group, and **No** to retain the judge group.

Copyright © 2002-2004, CAMWare, Inc.

The columns for the *Judge Groupings* table are as follows:

Table 5-2: Judge Groupings Columns

Column	Description
Classes	The classes the judge group is to judge.
#	The number of cars currently entered in the classes the judge group is to judge.
Exterior	The exterior judge for the class.
Interior	The interior judge for the class.
Engine/Boot	The engine/boot judge for the class.

The columns for the *Classes* table are as follows:

Table 5-3: Classes Columns

Column	Description
Class	The class.
#	The number of cars currently entered in the class.
Description	The JCNA description of the class.

Scoring Panel

The *Scoring Panel* is used to handle the scoring for the Concours d'Elegance.

The Scoring Panel

The *Scoring Panel* shows all of the entries in the Concours d'Elegance event in the *Scoring Table*. The table consists of the following columns:

Table 5-4: Scoring Columns

Column	Description
Entry	The entry number for the car. The entry number is automatically generated when the car is entered and is the class followed by a dash followed by a two-digit number.
JCNA #	The JCNA number of the entrant.
Entrant	The name of the entrant.

Copyright © 2002-2004, CAMWare, Inc.

Car	The description of the car entered.
Score	The entry's score. This should be empty or a number between 0.000 and 100.000 for concours and special classes and 0.000 and 10.000 for driven classes.

For convenience, the classes are grouped together and each group is shown in an alternating color. All of the columns, except the *Car* column, can be sorted by clicking on the column headers. The class groupings are kept when sorting.

To change the name of an entrant, click in the *Name* column for the entry. The following dialog will be displayed.

To change the entrant's name, click in the appropriate field and type the new name. When the name is correct, click **Ok**. If you do not want to change the entrant's name, click **Cancel**.

To enter a score for an entry, click in the *Score* column for the entry and type in the score, then type <Enter>. Note that it is not possible to enter a score for the Display class.

To delete an entry, select the entry to delete and click **Delete Entry**. A dialog will be displayed asking whether to delete the entry or not.

Click **Yes** to delete the entry, **No** to cancel the delete.

Score sheets for an entry can be printed by selecting an entry and clicking **Print Sheets...**. The current concours standings can be printed by clicking **Print Standings...**. The concours report can be printed by clicking **Print Report...**.

Copyright © 2002-2004, CAMWare, Inc.

Slalom Panel

There is only one panel specific to a Slalom event, the *Times Panel*.

Times Panel

The *Times Panel* is used to handle the time reporting for a Slalom event.

The Times Panel

The *Times Panel* shows all of the entries in the Slalom event in the *Times Table*. The table consists of the following columns:

Table 6-1: Times Columns

Column	Description
Entry	The entry number for the car. The entry number is automatically generated when the car is entered and is the class followed by a dash followed by a two-digit number.
JCNA #	The JCNA number of the entrant.
Entrant	The name of the entrant.
Driver's Lic #	The driver's license number of the entrant.
M/F	Whether the entrant is male(M) or female(F).
O	Whether the entrant is the owner of the car he or she is driving.
Car	The description of the car entered.
#	The number of times recorded for the entrant.
Time	The entrant's best time. This time is displayed in seconds.

For convenience, the classes are grouped together and each group is shown in an alternating color. The *Entry*, *JCNA #*, *Entrant*, and *Time* columns can be sorted by clicking on the column headers. The class groupings are kept when sorting.

Copyright © 2002-2004, CAMWare, Inc.

To enter or modify a time for an entry, select the entry from the *Times Table*. The current times for the entry will be shown in the *Time* fields below the table (the *Entry* field will change to specify what entry is being edited). Click in the *Time* field to edit and type the new time. Type <Enter> when the time is correct.

The entrant's name, driver's license number, whether they are male or female and whether they own the car they entered can be edited in the *Times Table*.

To change the name of an entrant, click in the *Name* column for the entry. The following dialog will be displayed.

To change the entrant's name, click in the appropriate field and type the new name. When the name is correct, click **Ok**. If you do not want to change the entrant's name, click **Cancel**.

The driver's license number is edited by clicking in the *Driver's Lic #* column of the entry that needs fixed and editing the value, remembering to type <Enter> when you are done. (Failure to type <Enter> will result in the value possibly being lost when another entry is selected.)

Whether the entrant is male or female is edited by clicking in the *M/F* column of the entry that needs to be fixed then selecting either **M**(male) or **F**(female) from the list that pops up.

Whether the entrant is the owner of the car is toggled by clicking in the *O* column of the entry that needs changed. This will toggle the value.

To delete an entry, select the entry to delete and click **Delete Entry**. A dialog will be displayed asking whether to delete the entry or not.

Click **Yes** to delete the entry, **No** to cancel the delete.

The entry forms for an entry can be printed by selecting an entry and clicking **Print Forms...**. The times will be printed on the entry forms, if they have been set. However, in the normal course of events the event forms are printed when the cars are registered and the times are printed later. The times alone can be printed by feeding the appropriate entry form back into the printer and clicking on **Print...**.

The current slalom standings can be printed by clicking **Print Standings...**. The slalom report can be printed by clicking **Print Report...**.

Copyright © 2002-2004, CAMWare, Inc.

Miscellaneous Information

Entrant Administration

Entrants can be modified using the *Entrant Administration Dialog*. It is invoked using the **Admin->Entrants...** menu option.

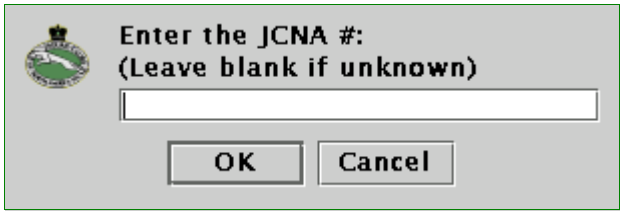
Member List
Member Editor

The Entrant Administration Dialog

To find a member quickly, use the *Member Search Dialog* by clicking **Find**.

After the selected member has been edited using the *Member Editor*, click **Set Info** to make the changes permanent.

If the member is not in the list, click on **New**. A dialog appears asking for the member's JCNA Number,



If the JCNA Number is known, then type it in (without any club prefix or leading zeros) and click **Ok**. If the member is there, the member will automatically be selected. If it is not there, then a new member record is created with that JCNA Number. If the JCNA Number is not known, leave the field empty, and click **Ok**. This creates a new member record with an automatically generated JCNA Number (these numbers start with the letter 'L' followed by four digits and are unique only within your club's data). If you decide not to enter a new member, click **Cancel** to return to the *Entrant Administration Dialog*. Click **Close** to return to the ***JCNA Event Manager***.

Copyright © 2002-2004, CAMWare, Inc.

The Member List

The *Member List* allows the selection of one member for editing.

Members:

JCNA #	Name	Address	City	State

To select a member in the list, click on the row that represents that member. When this occurs, the member's information is placed in the *Member Editor* for editing.

The *Member List* contains columns for each piece of information about the members. The following table contains a list of all of the columns and their descriptions.

Table 7-1: Member List Columns

Column	Description
JCNA #	The member's JCNA Number.
Name	The member's name (first name, then last name).
Address	The member's street address (both parts).
City	The city where the member lives.
State	The state where the member lives.
Entree #1 (Beef)	The number of Entree #1 ordered for the banquet. The column header changes based on the entree name on the *Event Panel*.
Entree #2 (Chicken)	The number of Entree #2 ordered for the banquet. The column header changes based on the entree name on the *Event Panel*.
Entree #3 (Fish)	The number of Entree #3 ordered for the banquet. The column header changes based on the entree name on the *Event Panel*.
Entree #4 (Other)	The number of Entree #4 ordered for the banquet. The column header changes based on the entree name on the *Event Panel*.
Country	The country where the member lives..
Code	The member's postal code.
	Whether the member is a judge. means the member is a judge.
Club	The club the member belongs to.
Home	The member's home phone number.
Work	The member's work phone number.
Fax	The member's fax number.
Email	The member's email address.

Copyright © 2002-2004, CAMWare, Inc.

The first five columns (*JCNA #*, *Name*, *Address*, *City*, and *State*) are showing by default. The other columns can be seen by clicking the left-pointing arrow at the top of the vertical scrollbar. Each click of this button will add one more column to the display. The right-pointing arrow removes one column from the the display. The *JCNA #* and *Name* columns cannot be removed from the display.

The order of the columns can be changed by dragging the column headers left or right.

The list can be sorted by some of the columns (*JCNA #*, *Name*, *City*, *State*, *Country*, and *Club*). To do this, click on the header of the column you wish to sort on. The column will be sorted in ascending order. A second click on the same column header will sort the column in descending order. Subsequent clicks will toggle the sort order for the column. A small arrow at the far right side of the column header 
shows which column is sorted and whether it is sorted in ascending or descending order. The sorted column header is also rendered in bold.

The Member Editor

The *Member Editor* is used to change the information about a member.

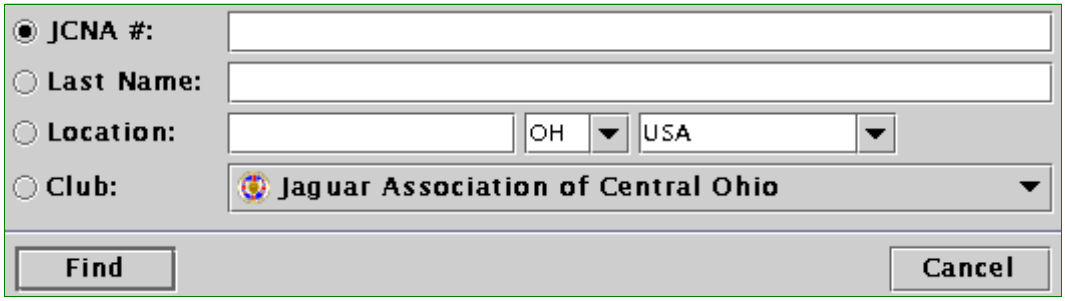
After selecting a member to edit (either new or old), just click in the field that needs to be changed and edit the text there or use the selector to select a new state, country, or club. The number of each entree ordered by the entrant can be changed by clicking on the up or down arrows or typing in a number and pressing <Enter>**.** The entree names should match the values typed in on the *Event Panel*. The Judge flag (whether the member is a judge or not) is set by the *Judge* toggle.

After all of the edits have been made to the member, click **Set Info** to make the information permanent.

Failure to click **Set Info** will cause the changes to be discarded when the next member is selected or the dialog is canceled.

The Member Search Dialog

The *Member Search Dialog* allows the searching of the member list.



Copyright © 2002-2004, CAMWare, Inc.

Members can be search using one of four criteria. A side effect of a search is that the member list gets sorted, based on which search criterion is used, before the search is done. The following table describes these criteria.

Table 7-2: Member Search Criteria

Criterion	Sorted Column	Description
JCNA #	JCNA #	Find a member by JCNA Number. This is the most exact search.
Last Name	Name	Find a member by last name. This finds the first member with the specified last name or the first member that is the closest to it.
Location	City (if present) State (if present) Country (if present)	Find a member by city, state and/or country. This finds the first member with the city, state, and/or country as their address. In this search, only one of city, state, or country is required, but all three can be specified.
Club	Club	Find a member by club. This finds the first member for a particular club.

To use the search dialog, click on the appropriate criterion, fill in the data to search for, and click **Find**. Entering a value into the JCNA #, Last Name, or Location fields or selecting a club will automatically select that criterion as the search criterion. Also, typing <Enter>, while in any of the fields, will perform the search.

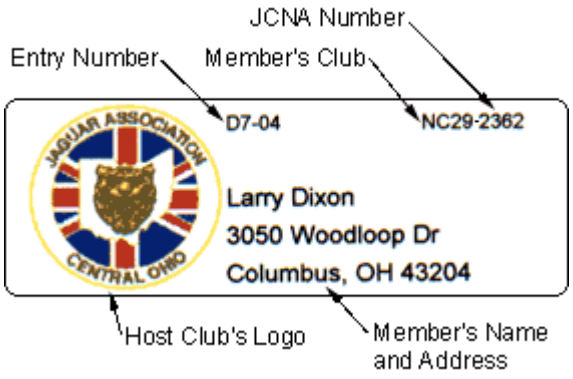
When the search is performed, the member list will scroll so that the found member is displayed and highlighted.

To cancel the search, click **Cancel**.

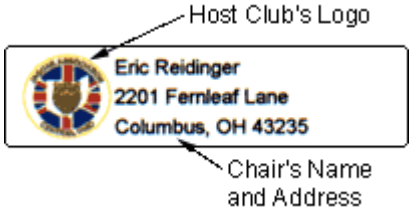
Label Printing

Mailing labels can be printed from the **Admin->Print Labels...** menu item or the **Admin->Print Returns...** menu item.

Admin->Print Labels... prints a label for every entry in the event. The following picture shows a sample label printed this way in addition to the features of the label.

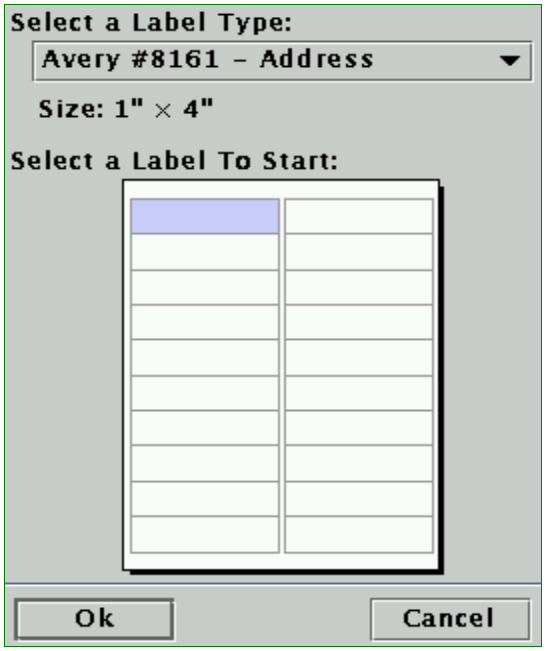


Admin->Print Returns... prints a return label with the chair's name and address on it for every entry in the event. The following picture shows a sample label printed this way in addition to the features of the label.



When either of these menu items is invoked, the *Label Selection Dialog* is displayed.

Copyright © 2002-2004, CAMWare, Inc.



The Label Selection Dialog

This dialog gives the user the opportunity to select the type of labels the application should print and where on the sheet of labels to start printing (so that partial sheets can be used).

Select the type of label to print using the *Label Type* selector. When a new label type is selected, the label size will be displayed just below the selector and the label layout in the *Label Start* selector will update to reflect the selected label type.

Select a label to start printing simply by clicking on the label on the displayed sheet. The labels are printed left to right across the row, then down the page.

Clicking **Ok** will accept the specified information and start the printing process. Clicking **Cancel** will cancel label printing.

The following table shows the labels currently available to the application:

Copyright © 2002-2004, CAMWare, Inc.

Table 7-3: Supported Labels

Avery #6460	Address	1" × 2.63"
Avery #6467	Return Address	½" × 1¾"
Avery #8160	Address	1" × 2.63"
Avery #8161	Address	1" × 4"
Avery #8162	Address	1.33" × 4"
Avery #8167	Return Address	½" × 1¾"
Avery #8460	Address	1" × 2.63"
Avery #8462	Address	1.33" × 4"
Avery #8660	Address	1" × 2.63"
Avery #8662	Address	1.33" × 4"
Avery #8667	Return Address	½" × 1¾"
Avery #8920	Address	1" × 2.63"
Avery #8922	Address	1.33" × 4"
Avery #8927	Return Address	½" × 1¾"
Avery #8930	Address	1" × 2.63"
Avery #8932	Address	1.33" × 4"

The default label for the Mailing labels is Avery #8161 (1" × 4" Address Labels) and the default label for the Return labels is Avery #8167 (½" × 1¾" Return Address Labels).

Tips

Whenever you are entering the state and country for an address, always make sure the country is correct first, then set the state.

Don't worry about selecting the search criterion when using the member search, just click in the field you want to search in, type your search string, then type <Enter>.

When entering a new car, be careful when selecting a model, because some models have many different versions, e.g. the XJ6. Make sure you get the correct one, because the model and year determine what class the car is entered in.

On the *Judge Panel*, if the person that you want is not in the chief judge list or any other judge list, they are probably not listed in the master member list as a judge (a very common occurrence). To fix this, use the *Entrant Administration* dialog to modify the Judge flag for the member. If the person is not a member of the JCNA, then use the *Entrant Administration* dialog to add them, making sure to set the Judge flag.

The judging assignment printout is also useful for telling how many cars are entered in each class. If no judging assignments have been made, the printout will contain a list of classes and how many cars are entered in each.

Make sure you type <Enter> after entering a score in the *Scoring Panel* or change car information in the *Old Car Table*. Failure to do so may cause the information to be lost (you will need to enter it again).

Make sure you type <Enter> after entering a number of entrees ordered. Failure to do so may cause the information to be lost (you will need to enter it again).

Copyright © 2002-2004, CAMWare, Inc.

After you edit a member's personal information (either from the *Registration Panel* or the *Entrant Administration Dialog*), make sure to click **Set Info**. Failure to do so will cause the changes to be discarded when the next member is selected or the dialog is canceled.

If the information on an entrant's score sheets is incorrect (either personal or car information), you can fix the information, then reprint the score sheets from the *Scoring Panel*. To fix an entrant's personal information, use Entrant Administration. To fix car information, select the entrant in the *Registration Panel*, then fix the information in the *Old Car Table*. Only color can be fixed this way. If the year or model is wrong, the entry must be deleted and then recreated.

Archive the event when you have made sure the data is all correct. This will ensure that the data for than event will be available in the future.

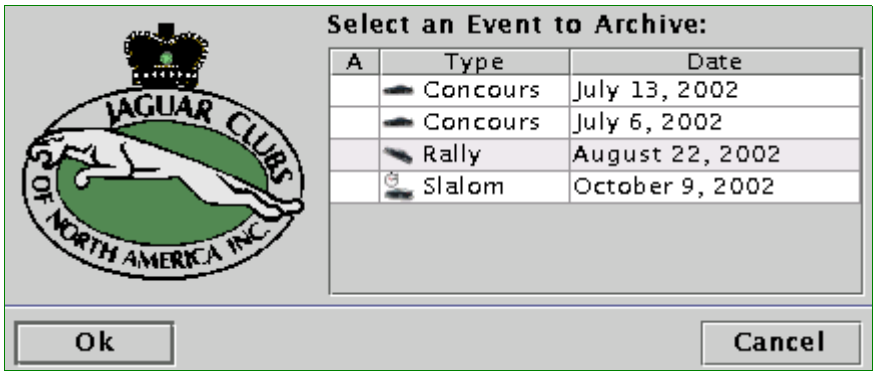
Archiving

WARNING

Once an event is archived, it becomes un-editable. Only do this step when all of the data for the event is correct.

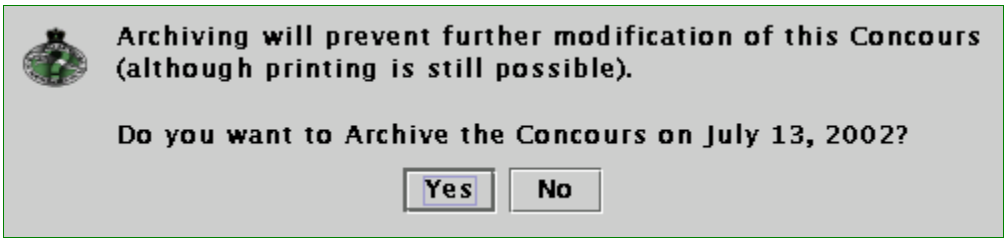
When the event is over and all of the information for the event is correct, it is possible to archive the data for the event. When an event is archived, the entrants and their cars are saved with the event information in one file, so that, at a later time, the information could be extracted, for example to print labels to use for pre-event informational mailings. Once an event is archived, modifications can no longer be made, however, all of the reports and standings can be printed.

To archive an event, start the JCNA Event Archiver in the usual way based on the operating system, e.g. from the **Start** menu on Windows. The following dialog appears.



This dialog allows you to choose which event you wish to archive. Select the event from the list of events and click **Ok** (or double click on the event). Click **Cancel** to exit the Archiver.

When an event is selected and **Ok** is clicked, a dialog appears asking whether you really want to archive the event.



Archiving will prevent further modification of this Concours (although printing is still possible).
Do you want to Archive the Concours on July 13, 2002?
Yes
No

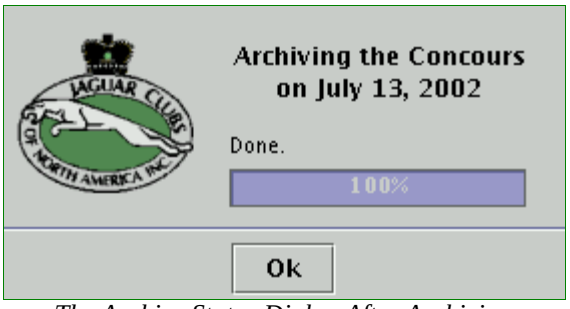
The Archive Query Dialog

Click **Yes** to archive the event, **No** to exit the Archiver without archiving the event. If **Yes** is clicked, the Archiver starts the archive process by displaying a status dialog.

Copyright © 2002-2004, CAMWare, Inc.

The Archive Status Dialog

When the archiving is done, the status will read *"Done."* and the **Ok** button will be enabled.



The Archive Status Dialog After Archiving

Click **Ok** to exit the Archiver.

Data Storage

WARNING

Users should **NOT** edit the data files stored as described here. The data is described so that the user is familiar with the data storage hierarchy in the case of problems.

The data for the ***JCNA Event Manager*** is stored in files in a folder (directory) called *data* under the location the application was installed (Usually, C:\Program Files\JCNA Event Manager on Windows machines). The following table describes the files that are in this directory.

Copyright © 2002-2004, CAMWare, Inc.

Table 7-4: General Data Files

File	Description
homeClub.cfg	This file contains the home club for this installation of the ***JCNA Event Manager***.
members.cfg	This file contains any added or changed member information for this installation of the ***JCNA Event Manager***.
cars.cfg	This file contains all of the cars known about for this installation of the ***JCNA Event Manager***.

WARNING

The current version of the ***JCNA Event Manager*** does **NOT** support Rally events, only Concours d'Elegance or Slalom events.

Event data is stored in a folder under the *data* folder called *events*. There is one file in this folder for each event managed by the ***JCNA Event Manager***. These files have the following format:

```
<type>MMDDYYYY
```

where <type> is the event type (concours, rally, or slalom), **MM** is the two-digit month, **DD** is the two-digit day, and **YYYY** is the four digit year.

Result data is stored in a folder under the *data* folder called *results*. There is one file in this folder for each event managed by the ***JCNA Event Manager***. These files have the following format:

```
<type>MMDDYYYY
```

where <type> is the event type (concours, rally, or slalom), **MM** is the two-digit month, **DD** is the two-digit day, and **YYYY** is the four digit year. The results files are used to send to the JCNA database for national scoring.

Error Reporting

In the event of a problem with the ***JCNA Event Manager***, gather the data directory (described above) and a file called *errors* (located where the application was installed, usually, “C:\Program Files\JCNA Event Manager” on Windows machines) into a compressed zip file. Email a detailed description of what you did to cause the problem, with the zip file attached, to mottayaw@midohio.net.

Appendix A: Concourse Tasks

Enter a Car in a Concours d'Elegance

1. Select the *Registration Panel*.
2. Click **New Entrant...**.
3. When the *Entrant Selection Dialog* is displayed, select the entrant that is entering the car. Use the *Search Form* to quickly find the entrant.
4. Click **Ok** to enter the selected member or click **New** to enter someone who is not in the list (usually a non-JCNA member).
5. Check the data displayed in the *Registration Panel*'s *Entrant Editor*. Make corrections, if necessary, or enter the data, in the case of the new entrant.
6. If some data was changed in the *Entrant Editor*, click **Set Info**.

If the car to be entered was never entered in a previous event,

7. Select the car's model in the *New Car Entry* section of the *Registration Panel.*
8. Select the *Year*.
9. Set the car's color, either by selecting it from the drop-down list or typing it into the *Color* selector.
10. Select the division the car is to be entered in from the *Division* selector.
11. Click **Enter Car**.
12. Go to step 17.

If the car to be entered was entered in a previous event,

14. Select the car to be entered in the *Previous Car* table in the *Old Car Entry* section of the *Registration Panel*.
15. Select the division the car is to be entered in from the *Division* selector.
16. Click **Enter Car**.

17. When the *Car Entered* dialog is displayed, correct any names that need corrected.
18. Select whether or not to *Print Score Sheets*.
19. Click **Ok**.

Delete an Entry from a Concours d'Elegance

1. Select the *Scoring Panel*.
2. Select the entrant to delete from the *Scoring Table.*
3. Click **Delete**.
4. When the *Delete Entry* dialog is displayed, click **Yes**.

Assign a Judge to a Class

1. Select the *Judge Panel.*
2. Set the *Edit By* selector to **Class**.
3. Select the Judge to assign from the *Judges* list.
4. Click in the *Judge Classes* table in the class and portion to assign the judge.
5. Click in any more classes and portions to assign the judge elsewhere.

Copyright © 2002-2004, CAMWare, Inc.

De-Assign a Judge

1. Select the *Judge Panel.*
2. Set the *Edit By* selector to **Class**.
3. Select the **None** from the *Judges* list.
4. Click in the *Judge Classes* table in the class and portion to de-assign.
5. Click in any more classes and portions to de-assign elsewhere.

Add a Judge Group

1. Select the *Judge Panel.*
2. Set the *Edit By* selector to **Group**.
3. Select the exterior, interior and engine/boot judges using the *Exterior*, *Interior*, and *Engine/Boot* selectors, respectively.
4. Select the classes the judge group is to judge in the *Classes* table.
5. Click **Add**.

Modify a Judge Group

1. Select the *Judge Panel.*
2. Set the *Edit By* selector to **Group**.
3. Select the Judge Group that is to be modified from the *Judge Groupings* table.
4. Make the changes in the Judge Group using the *Exterior*, *Interior*, and *Engine/Boot* selectors and the *Classes* table.
5. Click **Modify**.

Delete a Judge Group

1. Select the *Judge Panel.*
2. Set the *Edit By* selector to **Group**.
3. Select the Judge Group that is to be deleted from the *Judge Groupings* table.
4. Click **Delete**.
5. When the *Delete Judge Group* dialog is displayed, click **Yes**.

Print Concours Report

1. Select the *Scoring Panel*.
2. Click **Print Report...**.
3. When the standard *Print Dialog* is displayed, set any special values and click **Ok**.
4. When the printing has completed, click **Ok** in the *Printing Done Dialog*.

Print Concours Standings

1. Select the *Scoring Panel*.
2. Click **Print Standings...**.
3. When the standard *Print Dialog* is displayed, set any special values and click **Ok**.
4. When the printing has completed, click **Ok** in the *Printing Done Dialog*.

Copyright © 2002-2004, CAMWare, Inc.

Print Judging Assignments

1. Select the *Judge Panel.*
2. Click **Print Assignments...**.
3. When the standard *Print Dialog* is displayed, set any special values and click **Ok**.
4. When the printing has completed, click **Ok** in the *Printing Done Dialog*.

Print Judge's Report

1. Select the *Judge Panel.*
2. Click **Print Report...**.
3. When the standard *Print Dialog* is displayed, set any special values and click **Ok**.
4. When the printing has completed, click **Ok** in the *Printing Done Dialog*.

Print Score Sheets

1. Select the *Scoring Panel*.
2. Select the entrant from the *Scoring Table* to print the score sheets for.
3. Click **Print Sheets...**.
4. When the standard *Print Dialog* is displayed, set any special values and click **Ok**.
5. When the printing has completed, click **Ok** in the *Printing Done Dialog*.

Copyright © 2002-2004, CAMWare, Inc.

Appendix B: Slalom Tasks

Enter a Car in a Slalom

1. Select the *Registration Panel*.
2. Click **New Entrant...**.
3. When the *Entrant Selection Dialog* is displayed, select the entrant that is entering the car. Use the *Search Form* to quickly find the entrant.
4. Click **Ok** to enter the selected member or click **New** to enter someone who is not in the list (usually a non-JCNA member).
5. Check the data displayed in the *Registration Panel*'s *Entrant Editor*. Make corrections, if necessary, or enter the data, in the case of the new entrant.
6. If some data was changed in the *Entrant Editor*, click **Set Info**.

If the car to be entered was never entered in a previous event,

7. Select the car's model in the *New Car Entry* section of the *Registration Panel.*
8. Select the *Year*.
9. *Optional:* Enter the VIN # and LIC #.
10. Set the car's color, either by selecting it from the drop-down list or typing it into the *Color* selector.
11. Select the division the car is to be entered in from the *Division* selector.
12. Click **Enter Car**.
13. Go to step 17.

If the car to be entered was entered in a previous event,

14. Select the car to be entered in the *Previous Car* table in the *Old Car Entry* section of the *Registration Panel*.
15. Select the division the car is to be entered in from the *Division* selector.
16. Click **Enter Car**.

17. When the *Slalom Entry Dialog* is displayed, correct any names or select the appropriate name.
18. Set whether the entrant is *Male* or *Female* and whether the *Entrant is the Owner*.
19. *Optional:* Enter the entrant's driver's license number in the provided field.
20. Select whether or not to *Print Entry Form(s)*.
21. Click **Ok**.

Delete an Entry from a Slalom

1. Select the *Times Panel.*
2. Select the entrant to delete from the *Times Table*.
3. Click **Delete**.
4. When the *Delete Entry* dialog is displayed, click **Yes**.

Copyright © 2002-2004, CAMWare, Inc.

Set an Entry's Times

1. Select the *Times Panel.*
2. Select the entrant to set the time for from the *Times Table*.
3. Enter the new time in the next available *Times* field.
4. Type <Enter>.
5. Repeat steps 3 and 4 to set more times for this entrant.

Print Slalom Report

1. Select the *Times Panel.*
2. Click **Print Report...**.
3. When the standard *Print Dialog* is displayed, set any special values and click **Ok**.
4. When the printing has completed, click **Ok** in the *Printing Done Dialog*.

Print Slalom Standings

1. Select the *Times Panel.*
2. Click **Print Standings...**.
3. When the standard *Print Dialog* is displayed, set any special values and click **Ok**.
4. When the printing has completed, click **Ok** in the *Printing Done Dialog*.

Print Slalom Forms

1. Select the *Times Panel.*
2. Select the entrant from the *Times Table* to print the entry forms for.
3. Click **Print Forms...**.
4. When the standard *Print Dialog* is displayed, set any special values and click **Ok**.
5. When the printing has completed, click **Ok** in the *Printing Done Dialog*.

Print Slalom Times

1. Select the *Times Panel.*
2. Select the entrant from the *Times Table* to print the times for.
3. Place the previously printed entry form in the printer.
4. Click **Print...**.
5. When the standard *Print Dialog* is displayed, set any special values and click **Ok**.
6. When the printing has completed, click **Ok** in the *Printing Done Dialog*.

Copyright © 2002-2004, CAMWare, Inc.

Appendix C: Miscellaneous Tasks

Print Mailing Labels

1. Activate the **Admin->Print Labels...** menu item.
2. When the *Label Selection Dialog* is displayed, set the label type and starting label, then click **Ok**.
3. Make sure the desired type of labels are loaded in the printer.
4. When the standard *Print Dialog* is displayed, set any special values and click **Ok**.
5. When the printing has completed, click **Ok** in the *Printing Done Dialog*.

Print Return Labels

1. Activate the **Admin->Print Returns...** menu item.
2. When the *Label Selection Dialog* is displayed, set the label type and starting label, then click **Ok**.
3. Make sure the desired type of labels are loaded in the printer.
4. When the standard *Print Dialog* is displayed, set any special values and click **Ok**.
5. When the printing has completed, click **Ok** in the *Printing Done Dialog*.

Print Entree Report

1. Select the *Event Panel*.
2. Click on **Print...**
3. When the standard *Print Dialog* is displayed, set any special values and click **Ok**.
4. When the printing has completed, click **Ok** in the *Printing Done Dialog*.

JCNA Slalom Tech Inspection Check List
and Acknowledgement of Responsibility

Owner/Driver: Carl Mottayaw
Car Make/Model/Year 1986 XJ6 SIII Slalom Class F

Slalom Steward is responsible to assure that all vehicles are inspected prior to running in a JCNA slalom event. Slalom Steward or designated inspector must perform the following inspections (indicate inspection done with ✓ or mark N/A if not applicable):

_____ Valid drivers license, registration and insurance card.
_____ Seat belts, mandatory. Check condition.
_____ Tire tread in good condition, no cords showing, with adequate tread.
_____ Steering wheel for no excess play or wear in steering linkage.
_____ Front wheel bearing, push and pull at top of wheel, if loose may need adjustment. Excess play, wheel wobble, suggest that car not run.
_____ Drive train for no excessive leaks. If car is has significant leaks or is spilling radiator fluid, it should not be allowed to run.
_____ Throttle return springs working smoothly.
_____ Battery held down securely. Battery in driver's compartment must be in a secured battery case of have leak-proof (sealed) caps.
_____ Brake pedal for firmness.
_____ Trunneau covers should be removed.
_____ Fixed head cars must have driver's door window rolled half way down.
_____ All loose articles should be removed from passenger and boot areas.
_____ Check tires for under-inflation.
_____ Recommend to driver to inflate front tires 10 psi higher than what is normal for their vehicle. Actual inflation level is driver's responsibility.
_____ Check all wheels for security, i.e., lug nuts or spinners tight.
_____ Check wire wheels for broken or loose spokes.

Tech Inspection Done (Sign) _____ Date: _____

Owner/Driver Acknowledgement of Responsibility:

I understand that the Tech Inspection performed by the sponsoring club is done as a matter of courtesy and to assure that cars with obvious problems do not run in the sponsored event, but that JCNA, the sponsoring club and inspectors do not thereby assume any responsibility for assuring that the car is in a safe and proper operating condition. **I acknowledge that it is ultimately my responsibility to assure the safety and condition of my car and to determine whether it is in a safe and proper condition to participate in this event.** I agree to hold JCNA, the sponsoring club, all participants and the location owner harmless from any loss or liability including any personal injury or property damage that may result from my decision to operate this vehicle or my participation in this event.

Questionnaire re: Performance Modifications

In order that Slalom Steward can determine proper classification of all cars with modifications of any kind, please complete the following:

Make/Model/Year: 1992 XJ6 (XJ40) **Slalom Class:** SP/H

Owner/Driver: Jim Baker **JCNA Number:** 23515

Circle the letter of each of the following that apply to your car:

a. Installed 6-point roll bar (4-point roll bar in OTS permitted in stock/SP and will not count as a modification).
b. Tire tread wear below 140 and above 80 (unless original factory standard or optional equipment in that class, which shall be permitted in stock class and not considered a modification for this rule). Any street-legal tire/wheel combination is permitted in SP so long as no body modifications are required to permit their use, provided tire tread wear rating is above 80.
c. Suspension modifications including up rated torsion bars and/or springs, up-rated and/or adjustable sway bars, adjustable shocks, polyurethane suspension bushings.
d. All performance-enhancing brake modifications.
e. After-market wheels (non-Jaguar wheels or wheels that were not Jaguar original or optional equipment, or their functionally equivalent replacement part, for the class of that car)
f. Tire profile lower than that listed in Operator's manual.
g. Lowered ride height (beyond that permitted by the normal adjustment of the car's suspension)
h. Weight reduction (other than removal of loose equipment, fuel or the car's spare tire)
i. Exhaust headers or flow enhancing exhaust pipes
j. After market external engine accessories that enhance performance
k. Internal engine HP enhancements
l. Flow enhancing intake modifications including low restriction air filters
m. Other performance enhancing modifications not specifically stated.

Total ____ (Five or fewer of the above place the car in the applicable Street Prepared class. More than five of the above place the car in Modified class.)

Note: Cars with any of the following modifications are automatically in Modified class:
a. "R" compound tires, Autocross tires, shaved tires or "slicks";
b. Tire tread wear rating below 80; or
c. After-market turbo or supercharging.

Failure to declare modifications may result in disqualification from all runs in this event and may be referred to JCNA Slalom Committee for further action.
